

Unleash the Power of Organic Healing

## Edye's Naturals Skin Care Products, Made from Pure Organic Ingredients

Edye's Naturals skin care products are hand-crafted in small batches from internationally sourced high-quality organic ingredients designed for women over 40 but safe for the whole family, even pets. Founded in 2009 by Edye Dumhart, Edye's Naturals are free from skin irritants such as chemicals, parabens, phthalates, mineral oils, sodium laurel sulfate, are never tested on animals and contain no water or alcohol. Derived from natural antioxidant-rich plant oils, glowing testimonials about the products' effectiveness are frequently posted on its website and Facebook page. Currently, the FDA doesn't regulate cosmetics, so consumers must make informed choices and buy from companies they trust.

Edye's Naturals are available online at [www.edyesnaturals.com](http://www.edyesnaturals.com) at nearly 30 health food and retail stores, wellness spas, and at craft shows and markets in New Jersey and Pennsylvania. An insert explaining the ingredients, nutrients and product uses is included with online orders. The prices below are for those at the website and may vary at retailers. A brief product overview follows. More details about each of the seven products and a list of retailers is at the website.
